Project Proposal results

Dear Mr. Geneviev,

Thank you very much for your letter of December 1st, and also for sending me details of your research proposal. I will also take this opportunity to wish the project a successful outcome.

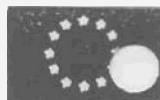

Yours sincerely,

Svein Longva

Dear Mr Geneviev,

Thank you very much for your letter of 8 December 1999 addressed to Mr Yves Franchet in which you enclose a copy of the second proposal on the Esculape project.

The subject is topical and the proposal well formulated. I wish you great success.

Yours sincerely,

Daniel Byk
Director

Paris, 26th April 1999

Dear Mr. Geneviev,

On behalf of the Secretary-General, I would like to confirm that we have received a copy of your correspondence dated 7th April 1999, addressed to Mr. T. Niwa, Assistant Secretary General at the United Nations, New York. The OECD wishes to thank you for your interest in our activities.

As Director for Science, Technology and Industry, I am responsible for work on Economic Analysis and Statistics in the OECD and a copy of your letter and project proposal has been referred to my office. I have read your paper with interest and have also taken the liberty of sharing this information with several colleagues in my Directorate.

May I take this opportunity to wish you every success for this interesting initiative and for attaining your goal.

Yours sincerely,

Risaburo NEZU

Dear Mr. Geneviev,

Thank you for your letter of 1 December 1999 to Dr. Abbas-Ali Zali, Head of the Statistical Centre of Iran, sending us details of your research proposal. We appreciate your valuable idea of creating a classification and codification of statistical data used in international organizations in order to develop a new methodology and a pilot system to collect in real-time statistical data from international organizations. However, as the Statistical Centre of Iran has close cooperation with ESCAP and other sections of the United Nations, if other countries of our region find your project practical, we will in turn consider the matter with regards to our possibilities and capacities.

Wishing your project a successful outcome,

Yours sincerely

Dear Mr. Geneviev,

Thank you for your letter of 23 November 1999 and the accompanying materials. I continue to find your proposal interesting. It was encouraging to see the expressions of interest in your proposal from so many other international organizations.

With best regards,

Yours sincerely,

Ghislain Robyn

Dear Mr. Geneviev,

I would like to confirm that we have received your letter dated March 27, 2000 with several documents regarding your project proposal, addressed to the Prime Minister Mr. D'Alema.

Thanking you for the kind attention you reserved to him, I take this opportunity to wish you success in your endeavour.

With my best regards.

Yours sincerely

Dear Mr. Genevier:

Thank you for your letter addressed to the Executive Director, Ms. Bertini, forwarding her a copy of the cooperation project description and the associated proposed work plan.

Unlike the specialised agencies, WFP is not involved in collecting statistical information and I therefore regret to inform you that WFP will not be able to participate in the finalization of the "Esculape" project proposal.

However, WFP is a user of country level statistics and indicators published by the agencies and will continue to follow your work and appreciate the opportunity of using such important findings in our own operations.

I am looking forward to receiving a copy of the final project.

Sincerely,

Gyorgy Konda
Chief

Central Information Management &
Statistics Branch (SPD)

Att. n° 1 P.J. n° 18/20

Bratislava January 28, 2000

Dear Mr. Genevier,

Thank you very much for your letter of December 1st, 1999, in which you sent to our Office a proposal of Project on collection and providing of the statistical data using Internet in real time.

After reviewing the project I can state that it gives very interesting ideas. However, at present, the Statistical Office of the Slovak Republic has not a sufficient capacity nor resources for realisation of your proposal. If the means for solving of this problem are available, our Office would like to participate in it.

Yours sincerely,

Peter Mach

Objet : Project Proposal results.

Réf : V/L du 1^{er} décembre 1999.

Cher Monsieur,

La diffusion sur Internet des données statistiques conçues, élaborées, présentées et analysées sur la base de nomenclatures communes et de concepts standardisés, s'inscrit dans la logique d'accompagner l'émergence de la mondialisation et de l'ouverture des économies par un langage statistique universel et une base informationnelle adéquate. Un objectif de telle envergure contribuera au développement et à la rentabilisation de l'activité statistique et engendrera d'importantes économies d'efforts et de ressources.

En tant que noyau central du système marocain de l'information statistique, la Direction de la Statistique du Royaume du Maroc œuvre dans le même sens à l'échelle nationale, régionale et internationale, d'où tout l'intérêt que je porte au projet annexé à votre correspondance ci-dessus référencée. La concrétisation de ce projet est avantageuse dans la mesure où elle favorisera non seulement l'échange et l'usage de l'information statistique en temps réel mais aussi la concordance et la comparabilité des données statistiques produites et diffusées par les institutions inter et intra nationales.

En vous adressant mes encouragements et mes vœux de réussite, veuillez agréer, Cher Monsieur, l'expression de ma considération distinguée.

Le Directeur de la Statistique

Signé: Taoufiq CHERKAOUI
